

Traveling From the Comfort of Home

Do you have the travel bug? Did you know that you can travel from the comfort of your own home?

In the midst of a pandemic, travelling and exploring has not been an option. Even if we were free to travel anywhere we wanted to, it is not always possible, as sometimes life just gets in the way! With the use of the World Wide Web, you can travel the world from the comfort of your own home!

Some of the links below are interactive experiences on your computer, some are videos to watch, a few are both, and all vary in length. There are walking tours, guided tours and videos with music through famous museums, wonders of the world and even experiences like riding a roller coaster. We suggest a set of headphones for some of the tours for a better experience.

All the links below offer free tours
